Slim.

The ideal replacement projector

An industry-leading 2x optical zoom means that a Green Slim model will replace almost any installed projector seamlessly, without having to change ceiling brackets. This helps to keep budgets under control and disruption to a minimum. The Green Slim series offers brightness levels up to 3,000 ANSI lumens, more than enough for even a large, bright meeting room. They are light and portable, so can easily be moved between rooms if required.
